

Bird-Friendly Art For Your Windows!

Monday, July 10, 2017
6:30 – 7:30 p.m.

Ever hear a thud on your window and look out to find a dazed bird?
Ouch, that had to hurt!

Join us on to find out why this happens and what you and your family can do to help prevent Bird Strikes on your windows.

Marie North, a Certified Sustainable Building Advisor in the Lehigh Valley, will lead a short, kid friendly, interactive discussion about why birds hit glass and provide a Hands-On Activity using *Collidescape** where you will learn how to make window decals to prevent those hits that hurt.

*Material donated by Jeff Rank, *Collidescape*, and Lisa Parker, Wild Bird Center of Lehigh Valley, Fogelsville, PA

Whitehall Township Public Library
